

Final Examination Schedule Variations
Department of Medical Imaging and Radiation Sciences

Fall 2017

Final examinations within department coursework are given according to the University of Oklahoma Final Examination Schedule with exceptions noted below. The final examination date is announced to students on the course syllabus/agenda distributed at the beginning of the semester.

Clinic Courses (MIRS 3460/4460, 3560/4560, 3660/4660, 3860/4860) meet for many hours each week and consequently fit into multiple time slots on the established schedule. Finals are scheduled at the discretion of the program during assigned clinic course time, at the end of the clinic assignment/instruction, during the last week of class, or during times appropriate to the scheduled course during finals week. The clinic final dates are announced to the students on the course syllabus at the beginning of the semester.

The following courses meet once each week for lecture or meet on irregular days. These courses may have associated laboratories. The final is being scheduled at an alternate time than the prescheduled OU prescribed time to allow the instructor to fully use class time and to appropriately space examinations through the last week of class and finals week.

Friday, Dec 8

MIRS 3193:	8:00am – 9:50am	Core
MIRS 4212:	10:00am - 11:50am	Radiography

Monday, Dec 11
