FERPA Policy on Student's Access to their Educational Records:

Based on the Family Educational Rights and Privacy Act of 1974 (FERPA), students have the right to view their education records wherever these records are maintained on campus. Once a student has submitted a request to inspect his or her record, an institution must comply within 45 days. When the student has an outstanding financial or other hold on the record, the student will maintain the right to review his or her education record. He/She does not have the right to obtain copies unless failure to do so would effectively deny the student the right to inspect and review the record. Also, that student does not have the right to request a transcript sent to a third party until the obligation is fulfilled.

Parental Access to Student Academic Records:

Parent of a dependent student may have access to grades and other confidential academic information under guidelines provided in the Family Educational Rights and Privacy Act of 1974. Access to this information is limited to parents who claim the student on their current income tax return.
