

Foreign Credential Evaluation

PROGRAM GUIDE

Applicants who have completed coursework and/or degrees from non-U.S. institutions must have their completed post-secondary academic records evaluated by an authorized credential evaluation service using the guide below. Programs accepting WES and ECE require one course-by-course evaluation from either service. Programs accepting WES only are limited by the requirements of the central application service. No exceptions will be made for these programs.

PROGRAM	WES	ECE
UNDERGRADUATE PROGRAMS		
Communication Sciences & Disorders	X	X
